

## SANIFICATION

The Pandemic we are all facing has generated a large demand and use of sanitizers liquids; most of these are purchased in IBCs or bulky tanks from which is necessary to transfer in smaller canisters, dispensers, vaporizers or cleaning machines.

As fluid handling specialist, PIUSI supports the use of sanitizers with 2 interesting solutions: the new **PIUSI Hand Pump Sanitizer** and **PIUSI MPST130 SANITIZER**, an industrial transfer unit equipped with a pneumatic double membrane pump, hose and nozzle.

### PIUSI HAND PUMP SANITIZER

- Available in IBC or DRUM versions
- Suitable for all disinfectants
- With 10 rotations max., you can fill any vaporizer or backpack (10 rotations=4 litres)
- Flow rate up to 15 l/min. (for 60 revolutions per minute)
- The kit includes all types of drum connections, for the different threads available (2" BSP, 70x6, 56x4)

### PIUSI MPST130 SANITIZER

- Flow rate 50 l/min. (36 l/min. @ 3bar). - with Flow rate and pressure adjustment valve.
- Atex zone 2 certification (3/3 GD c IIB T135°C marking).
- Pneumatic double membrane pump.
- Fixing plate for all types of structures.
- Quick installation, with quick air connection.

CERTIFIED  
UNI - EN ISO 9001  
UNI - EN ISO 14001

Both solutions are compatible to work with the following fluids:

- Alcoholic solutions with ethyl and isopropyl alcohol with concentrations up to 70%,
- Solutions based on hydrogen peroxide with a concentration of up to 2%,
- Windscreen washing liquid
