

# INDUSTRIAL VACUUM CLEANERS

Dry material and water vacuum cleaners

Price list | Issue 2022

# REMKO RK SERIES

## Industrial Vacuum Cleaners

### REMKO RK 26 SERIES (K)

#### Dry material vacuum cleaner

#### Compact units with high capacity

The dry material vacuum cleaners are suitable for use in commercial applications. The devices convince due to high suction capacities and easy handling. They can be used to vacuum smooth floors, carpets, and upholstery, as well as wooden chips, broken glass, and even rubble. A permanent dirt filter is a part of the standard equipment.

The RK 26 K design has a boiler cleaning set.

### REMKO RK 45-75 SERIES

#### Dry material and water vacuum cleaners

#### Powerful units for professionals with large container volumes

The dry material and water vacuum cleaners are especially designed for commercial use. The units convince due to concentrated suction force and many possible applications. At construction sites, in industry, craftwork, trade, and wherever very high capacity is required in dry and wet areas.

- Extremely high suction power
- Problem-free transport
- Permanent dirt filter in standard equipment
- Easy to handle
- Container made of stainless steel
- Large tube diameter prevents blockage
- RK 26 K ideal for boiler cleaning

Permanent dirt filter

\*Boiler cleaning set for RK 26 K

Included accessories for RK 26 and RK 26 K

Included accessories for RK 45

Included accessories for RK 55 and RK 75
